Activities that Both Occupations Have in Common

Similarity of Focus Occupation to Associated Occupation: 99

Focus Occupation: Anesthesiologists (29-1061)

Associated Occupation: Family and General Practitioners (29-1062)

Work Activities	Exclusivity of Activity
Administer anesthetics	77
Administer injections	60
Administer medications or treatments	46
Analyze medical data	57

Calculate medical dosages	77
Collect clinical data	56
Communicate technical information	4
Conduct complete physical examinations	85
Conduct medical tests	80
Conduct patient assessments	69
Diagnose medical condition of patient	82
Document medical prognosis	77
Follow confidentiality procedures	58
Follow examining room procedures	84
Follow infectious materials procedures	52
Follow life support procedures	81
Follow operating room procedures	84
Follow patient care procedures	60
Follow surgical procedures	81
Identify body response variations	57
Interpret medical laboratory test results	72
Interpret x-rays	76
Make decisions	24
Make presentations on health or medical issues	50
Observe patient condition	48
Obtain information from clients, customers, or patients	40
Order medical laboratory tests	76
Perform minor surgery	82
Prepare patient reports	66
Prescribe or recommend drugs, medical devices or other forms of treatment	76
Record medical history or data	68
Take vital signs	56
Understand properties or composition of drugs	64
Understand technical operating, service or repair manuals	6
Use clinical problem solving techniques	69
Use emergency medical procedures	64
Use emergency medical treatment procedures	76
Use interpersonal communication techniques	10
Use knowledge of investigation techniques	16
Use knowledge of medical terminology	40
Use medical diagnostic techniques	71
Use medical equipment in direct patient care	75
Use research methodology procedures in health care	63
Use sanitation practices in health care settings	48

Not all positions in these occupations will necessarily perform all of the listed activities. The exclusivity rating is an indication of how unique the activity is amongst all occupations. The maximum rating is 100. High scores indicate that only a small number of occupations engage in that activity.

Tools and Technologies that Both Occupations Have in Common

**Similarity of Focus
Occupation to Associated
Occupation: 84**

Focus Occupation: Anesthesiologists (29-1061)
Associated Occupation: Family and General Practitioners (29-1062)

Tools and Technologies	Exclusivity
Acute care monitoring units and related products	22
Blood pressure units and related products	11
Computers	1
Content authoring and editing software	1
Data management and query software	1
Electrocardiography EKG units and related products	20
Emergency medical services resuscitation products	15
Finance accounting and enterprise resource planning ERP software	2
Industry specific software	1
Information exchange software	1
Intravenous and arterial tubing and administration sets and related products	22
Intubation supplies	21
Medical gloves and accessories	19
Medical staff clothing and related articles	17
Medical suction and vacuum products	33
Nasogastric tubes	43
Network applications software	1
Oxygen therapy delivery systems and devices	13
Pulmonary function testing and treatment products	24
Pulse oximeters	18
Resuscitation supplies	29
Scopes and specula and accessories for medical exam diagnostic use	23
Specimen collection and transport containers and supplies	14
Stethoscopes and related products	14
Syringes and accessories	14

Not all positions in these occupations will necessarily use all of the listed tools and technologies. The exclusivity rating is an indication of how unique the tool or technology is amongst all occupations. The maximum rating is 100. High scores indicate that only a small number of occupations use that tool or technology.
